

# “North Texas’ Premier Cosmetic/Restorative Team”

By Tammy Adams

Ursula

For more than two decades, Dr. Greg L. Gist has proudly served the people of North Texas and beyond from his restorative and cosmetic dental practice in Southlake. Patients young and old come to have their dental work done by the renowned cosmetic dentist, known for his gentle touch, compassionate demeanor and artistic approach to restorative dental care.

From the inviting office, built by Dr. Gist and his father in 1983, to the world-class personable staff, people know right away that this practice is unique. “God has blessed me with this dental practice,” Dr. Gist said. “My responsibility is the highest standard of care, integrity and love for my patients.”

## Beautiful Smiles Are A Team Effort

Over the years, Dr. Gist has etched out a solid reputation in the industry for his top-notch work in “metal-free” restorative and cosmetic procedures. And he is quick to point out that it is his excellent staff that sets him apart. “The strength of our practice is absolutely our people,” he explained. “To find the right type of people for our level of dental care has been a career-long search. Everyone here is not only mature and settled, they are also committed to incredible clinical results, communication, and a warm relationship with our patients. My staff knows that world-class dentistry improves the overall health and quality of life of our patients, and they all have my dentistry in their own mouths.”

## Smile Makeovers aren’t just for Reality TV

Smile makeovers aren’t just for the rich and famous or even the lucky few who can make it onto a television show. They are for anyone who wishes to enhance their smile and improve their overall oral health and appearance.

“Our office emphasizes cosmetic dentistry,” Dr. Gist explained. “We have the tools and the technology to improve your smile ... comfortably. You’ll be amazed at what we can do.” Since patient comfort is Dr. Gist’s first concern, new and safe sedation dental techniques mean patients can have years of dental treatments done quickly, while being very relaxed and lightly sedated.

Ursula, an architect, originally from Switzerland, resides in North Texas and recently had her smile restored by Dr. Gist. Although she has always taken care of her teeth, there was never a comprehensive approach taken with her smile design. Thus, she was never confident about her smile. “Instinctively, I would always put my hands in front of my mouth when I smiled,” she said.

“It has really made me a much more open, confident and responsive person,” Ursula explained. “The nicest compliment I get comes from people who don’t know I’ve had anything done and they say, ‘You know what I like about you? It’s your smile!’”

Trent, a 20-year-old college student, had congenitally missing and mal-shaped teeth and had them restored with titanium implants and Dr. Gist’s veneers. “It’s awesome not to hide my

## Consider the smile you've always wanted with Dr. Gist's Personalized Smile Design

smile anymore. This makeover has made a huge difference in my appearance."

Kristy is a stay-at-home mom from Southlake who spent many years feeling guilty about having a lot of cavities. After years of getting old-fashioned silver fillings, her teeth were nearly crumbling. Dr. Gist has been able to redo all her fillings with natural tooth-colored restorations that are very durable and enhance Kristy's beautiful look. "Some people are just born with bad teeth," she said. "But Dr. Gist was able to provide for me what nature didn't — strong teeth and a beautiful smile that looks great."

Kristy

Candy, an office manager for a leading periodontist had a full smile makeover with Dr. Gist's veneers and crowns. "What a difference Dr. Gist has made in my smile and self-esteem," she raved. "I hated to smile before but now I cannot stop! It was a wonderful experience in every aspect. Dr. Gist and his staff are a great group of people."

Jim, an executive in the Metroplex, had his smile restored with Dr. Gist's veneers. Several friends and associates referred Jim to Dr. Gist and he couldn't be happier with his decision. "I am so impressed by the very natural look and feel they have," he said.

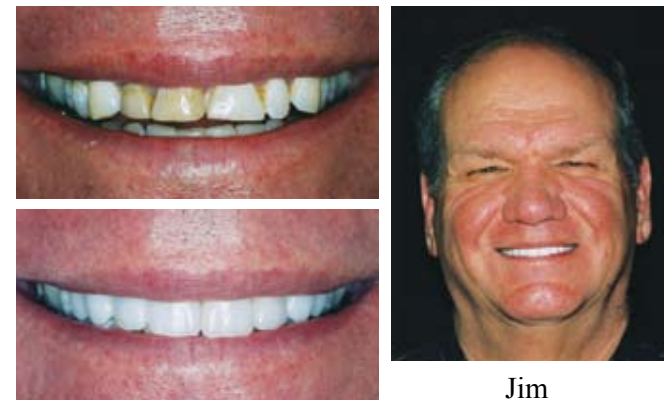

Lindsey lives in Hurst with her parents and when she didn't like the old dentistry that was done after an accident, her dad knew just whom to call. A few titanium posts and six Gist veneers later, Lindsey is smiling again. "My smile looks so much better than it ever did before!" she exclaimed. "I know that I smile much more now because I'm not embarrassed by my teeth. Dr. Gist and his team are the best!"

Lindsey

These are but a few of the happy patients who are smiling more confidently today because of their time spent in the dental chair at Dr. Gist's practice. Dr. Gist has more than 20 years of experience with complex dental smile makeovers and has restored literally thousands of smiles across Texas, United States and abroad. His approach is conservative, honest, relationship driven and guaranteed beautiful. "Extreme smile makeovers change lives and is the most rewarding service offered to our patients," he said. "These cases can be very challenging and each is artistically unique. You must balance beautiful aesthetics with proper occlusion, function and anatomy while using wonderful biocompatible materials that sustain a patient's health — not compromise it."

Dr. Gist's dental practice is located at 2379 North Carroll Road in Southlake. For more information, readers are invited to call 817-488-7512 or visit the Web site at [www.southlakesmiles.com](http://www.southlakesmiles.com).
